21 April 2020

Dear Colleague

2020/2021 Enhanced Service for the Availability of Specialist Medicines

A number of pharmacies across the South West are providing the Enhanced Service for the Availability of Specialist Medicines from 1st April 2020 to 31st March 2021. A list of these pharmacies, and their contracted opening hours, is attached to this letter. **Please note there has been a change of provider in Weston-super-Mare, North Somerset.**

By agreeing to provide the Specialist Medicines Enhanced Service the participating pharmacies are required to ensure that the medicines on the attached list are available at all times during their contracted opening hours and on any bank or public holidays on which they open. **Due to COVID-19 a number of pharmacies currently have revised opening hours which can be found on www.nhs.uk**

Some changes have been made to the specialist medicines and/or quantities that pharmacies are required to hold compared to previous years. The attached drugs list is subject to change during the pandemic and we may need to advise you about revisions that have to be made due to changes in guidance and/or availability of medicines.

The list is a basic list of medication designed to meet the urgent needs of patients and is not a substitute for forward planning in end of life care. In an urgent situation we would suggest that the prescriber contacts their nearest participating pharmacy and writes a prescription knowing what they have in stock.

If you become aware of any problems experienced by patients or healthcare professionals obtaining any of the listed medicines, or have any comments about the service, I would be grateful if you could contact me via england.pharmacysouthwest@nhs.net

Yours faithfully

Sarah Lillington,
Primary Care Support Lead, NHS England and NHS Improvement South West

NHS England and NHS Improvement
